JSTOR

The collections in JSTOR cover electronic journals in the humanities and social sciences. Here you will find peer-reviewed scholarly journals, literary journals, academic monographs, research reports and material from various special collections.

Access

On site at Konstfack you have access to Art & Architecture Source by clicking the name of the database in the list of databases on the [library's website](#). As a student or staff at Konstfack, you also have access from outside the university. Click the name of the database and then fill in your login credentials in the login box that appears.

Search example

We want to find articles on *urban planning* and *public art*. Suggested search terms:

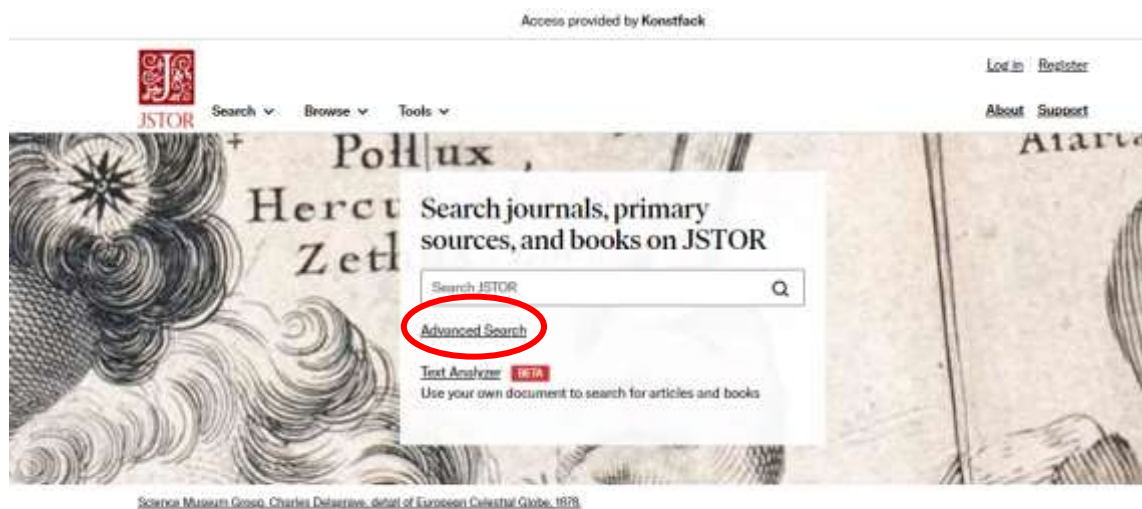

Urban planning: city planning, urban planning...

Public art: public art, public decoration, street art...

Please note that the search language is English. This also applies if you want to find articles in other languages.

Free text search

Click **Advanced search**:

Scienza Museum Corso, Charles Delavigne, detail of European Celestial Globe, 1878

We will perform a search by combining the two search terms (*urban planning* and *public art*) of our search query:

In the drop-down menu, you can choose to combine search terms with **AND**, **OR** or **NOT**. These are called **Boolean operators** and are a type of search command used in most databases to specify how different search terms should be combined. In this example, we choose **AND** as we want to get search results including both *urban planning* **AND** *public art*.

AND limits the search as both search terms must be included in the search results:

Urban planning **AND** public art

OR provides a broader search as at least one of the terms must be included:

Urban planning **OR** public art

NOT is used to exclude terms:

Urban planning **NOT** public art

It is recommended to use the **NOT** operator with caution as this might exclude relevant articles.

Image search

Images in the JSTOR database come from various universities, museums, and private collections. JSTOR also contains images from the image database **ARTstor**. Because the images come from different sources, the quality and size of the images may vary.

To search for images in JSTOR, you can either enter one or more search terms in the search box, or click **Search → Image Search**:

JOURNAL ARTICLE

Nonsocial Transient Behavior: Social Disengagement on the Greyhound Bus

Esther C. Kim

Symbolic Interaction, Vol. 36, No. 3 (August 2003), pp. 267-283

Greyhound Bus: Esther C. Kim Yale University Based on two years of observations and engaging in informal conversations with passengers on **Greyhound** Line buses, this article describes the long-distance bus journey and the ways in which people actively disengage from others over the course of the ride. Using the **Greyhound** buses...

Refine results – limit your search

To the left of the list of search results is the heading **Refine results**. Use these different filters to narrow your search:

Academic content

Different type of content, such as a journal article or book chapter.

Primary source content

Indicates the type of content the material consists of, such as images or serial publications.

Publication date

Here, the search result can be limited to material from certain years, for example, material published before a certain year can be deselected, if considered too old.

Subject

Indicates which subject the material can be sorted under

Access type

Content I can access Here, the search result can be limited to material available via Konstfack.

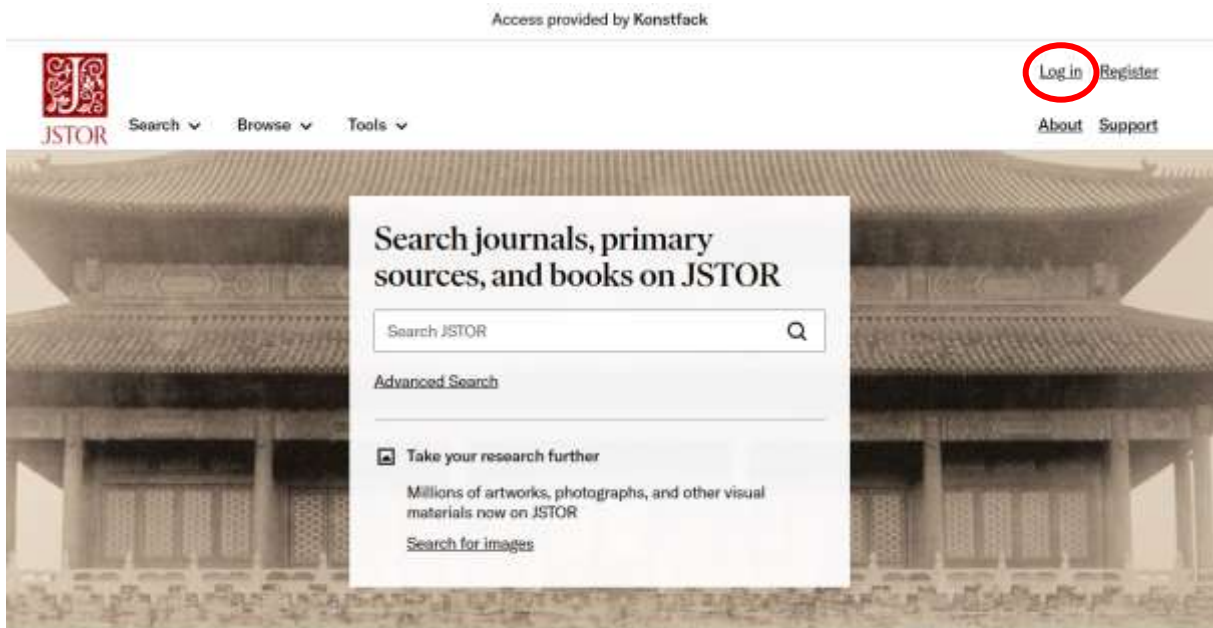

All content All content. If it is not available via Konstfack, it can in some cases be ordered.

Peer Review

Peer review is the process of other researchers within the same field reviewing articles before publication. Materials accessible through JSTOR come mainly from peer-reviewed scholarly journals, but some older materials may not be peer-reviewed. There is currently no filter in JSTOR that sorts out non-peer reviewed material.

Sign In – save searches and articles

If you have an account in JSTOR, you can save and organize articles and images. Click **Log in** and then **Register for a free account** to sign up:

Please note that you can also use your login credentials from ARTstor in JSTOR or vice versa.

Folder – save articles

To save material, you must have an account and be logged in to JSTOR (see above).

To save search results from the list of search results, tick the items / images you want to save and click **Save**. Saved material will then end up in your folder:
